

The floor

is DNS

HACKATHON

<IETF 105 / Montreal>

“The floor is DNS” themes

Eclectic group of DNS software engineers, working on:

- DNS privacy
- DNS support for specific network environments
- DNS provisioning
- Miscellaneous

DNS Privacy

- Zone transfers over TLS, a.k.a. XoT and XuD
 - Result: client implementation for dnsjava library for
 - draft-hzpa-dprive-xfr-over-tls
 - draft-zatda-dprive-xfr-using-dso
- DoH proxy plugin for any webserver
 - Result: FastCGI interface
 - RFC 8484
- Preparing BIND for DoT/DoH

DNS Provisioning

DNS Support for Specific Networks

Miscellaneous

Wrap Up
